IPP is the de facto file format for AutoCAD, and many applications use it. The AutoCAD native implementation of IPP is known as IPDS, Inventor Product Data. As of AutoCAD 2013, the most recent major release of the application, the viewer supports external viewers. An external viewer, sometimes referred to as a third-party software, is one which is not installed within

---

AutoCAD itself, but rather is a separate software package that interfaces to AutoCAD through an external plugin. The viewer works with a wide variety of external viewers, but the most commonly used external viewers include:

Navisworks, parametric graphics (topology) viewer based on

FlexRender MetaDesign, parametric graphics (topology) viewer based on

Adobe Flash Inventor, parametric graphics (topology) viewer based on

drawing and rendering software from Autodesk, Inc., and the IEEE 3DStudio Max, 3D modeling and animation As of 2017, AutoCAD has been on the market longer than any other commercial software package. History AutoCAD was first released in 1982 as AutoPLANE by Autodesk, Inc. Initially named "AutoCAD", the name was changed to "AutoCAD PLANE" in June 1985, and the last name was changed to "AutoCAD" in late 1998. During its first two decades, AutoCAD's

---

development was led by Jim Burton, who is credited as the "father" of the software. Along with development of AutoCAD's underlying platform, it has been used as a platform for creating application add-on products. Products, such as PowerProject, were created from an AutoCAD platform. Another AutoCAD-based application was Microsoft Visio, later renamed Project, which was a successful competitor to the original Visio. It was acquired by Autodesk in 1998, and was renamed as Project, a

professional development platform, in 2007. In addition to the main viewer, AutoCAD has been used in a number of other AutoCAD products. AutoCAD LT is a 32-bit licensed stand-alone version. The AutoCAD mx component allows creation of models, such as: Document set model Cadastral model Product design model The 32-bit version of AutoCAD was discontinued in 2010, and became freeware, a1d647c40b
