Publisher Electronic Arts Game Need for Speed
Most Wanted Release date 2004-05-07 Overview

Need for Speed Most Wanted is an auto racing game developed by Criterion Games and published by Electronic Arts. Its American release had a slightly different track, several additional cars and was released on June 15, 2005 in North America and June 24, 2005 in the United Kingdom.

Gameplay
The game features almost all of the cars found in the Need for Speed series, including an open world with street races. It features a safe racing mode for beginners, a career mode and a multiplayer mode, in which one can race up to five against each other in a one-on-one arena.

Single-player
The objective is to win the Most Wanted title. The player can pick one of three different vehicles when starting the game: the Ferrari F40, Dodge Challenger GT or the Lamborghini Gallardo. The player can choose to compete in ten of the forty Most Wanted events.

Outside the city limits of Las Venturas the player can choose between seven real-life tracks, including a desert, a mountain, and a windy beach. In addition to

the preset event schedule, the player can choose the difficulty: easy, normal or hard. Each race ends in one of five different ways: complete, unconfirmed, crash, self-destruct, or survive. In the crash mode, the player's car is deformed and the player's car becomes disabled. 3e33713323
